“ I so many memories from my childhood. The one memory I got in trouble: Devin and I were locked out the house so we walked from Ashland and Union to Grandma Mary's house at Lotus and Euclid. I know I was every bit of 9 yrs old. I knew she was always home and that she would open the door.

Another memory is of her watching the stories....gosh I would be bored out of my mind!!!!!!

Oh....she drank coffee and when we were over there, she would let us have some.

Siiiiiiigh

“ This woman has been a fixture in the neighborhood for years. She knows everyone and they know her. Mary L Johnson will be truly missed.

“ I mostly remember the 5 hour telephone conversations with my dear Aunt Mary. She knew everything and everybody. I remember the many days of sliding down the banister on the stairs -- getting yelled at and reminded that we were going to kill ourselves. She took care of so many people.
